good trip down memory lane. Childhood game, just ended within 10 hours or so.

To all the old boys who used to play this in their childhood:

1-Game is bug-free (at least i haven't experienced any)

2-100% same as the last time you played.

3-Not sure if multiplayer option works or not since i only played missions.

4- Recommended 10/10.

Just buy the game and support the developers for uploading this game on Steam,
and enjoy the game! :)
